PROFESSIONAL SUMMARY

Python Developer with **3+ years of experience** writing well-designed, idiomatic, and thoroughly tested Python software across backend frameworks (**Django REST Framework**, **Odoo ERP**, **FastAPI**) and AI/LLM integrations (OpenAI, OpenRouter.ai, Ollama). Comfortable working on **Linux** (Debian/Ubuntu-based environments), containerizing services with **Docker**, and deploying to the **cloud** (**AWS**, **Render**, **VPS**). Delivered **20+ production modules**, **150+ codebase migrations**, and scalable **REST APIs** with JWT auth, RBAC, and OAuth 2.0. Experienced collaborating proactively with **globally distributed teams**, debugging production issues, and contributing to technical documentation. Self-motivated, detail-oriented, and recognized as **Best Performer of the Year** at Webkul Software.

TECHNICAL SKILLS

Languages & Core Backend: Python · Django · Django REST Framework (DRF) · FastAPI (familiar) · REST API Development · Odoo ORM · JavaScript
Linux, DevOps & Containers: Linux (Debian/Ubuntu) · Docker · Docker Compose · Git · CI/CD · Gunicorn · SSH · Hostinger VPS · Render
Database & Automation: PostgreSQL · ORM Query Optimization · Indexing · CRON Jobs · Scheduled Actions · Batch Processing · Celery · Redis
Cloud & AWS: AWS EC2 · IAM · VPC · Elastic Load Balancing (ELB) · Elastic Block Store (EBS) · Amazon Machine Images (AMI) · Amazon S3 · Amazon RDS · DynamoDB · Route 53 · CloudFront · AWS Lambda · Cloud Computing · Virtualization
Authentication & Security: JWT Authentication · Google OAuth 2.0 · RBAC · Input Sanitization · ORM-safe Writes
Odoo ERP: Module Development · Module Migration (v14–v19) · QWeb · OWL JS · Odoo.sh · Cloudpepper · Community & Enterprise · Backbone.js
AI & Integrations: OpenAI GPT · OpenRouter.ai · Ollama · WhatsApp API · Postmark · 3CX VoIP · Webhooks · SpeechRecognition · Unsplash API
Frontend: OWL JS · React · Chart.js · HTML

WORK EXPERIENCE

- | | |
|---|--|
| Freelance Python Developer
<i>WareZip</i> | Apr 2026 – May 2026
<i>Remote</i> |
| <ul style="list-style-type: none">– Built and maintained well-structured backend services using Django, Django REST Framework, and PostgreSQL for a SaaS warehouse management platform, following clean, maintainable coding practices.– Designed and implemented secure REST APIs with JWT authentication, Google OAuth 2.0, and role-based access control mechanisms.– Managed deployment of Django backend services on a Linux (Hostinger) VPS, including Gunicorn configuration, environment setup, and application releases.– Collaborated proactively in a remote, async-first team with a React frontend group to ship 5+ API-driven features, cutting frontend-backend integration turnaround by ~30% per release cycle.– Debugged and resolved critical production incidents in a live SaaS environment, producing high-quality fixes that reduced mean time to recovery and maintained 99%+ API uptime. | |
| Software Developer
<i>Webkul Software Pvt. Ltd.</i> | Feb 2023 – Mar 2026
<i>Noida, UP, India</i> |
| <ul style="list-style-type: none">– Awarded Best Performer of the Year and Perfect Customization Badge; mentored 3+ junior developers, led code reviews, and demonstrated technical leadership across sprint cycles in a distributed team.– Odoo ERP (Python/ORM): Wrote high-quality, well-tested Python code for 20+ custom modules and migrated 150+ modules across v14–v19 on Linux-based Community & Enterprise deployments; delivered customizations across Sales, Invoicing, Manufacturing, Inventory, CRM, and Email Marketing with tailored QWeb reports and supporting documentation.– Django & DRF: Designed and delivered RESTful APIs with JWT authentication, Google OAuth 2.0, and RBAC for secure, multi-role enterprise integrations and external API consumers.– AI/LLM Integration (Python): Integrated OpenAI GPT, OpenRouter.ai, and local Ollama models into both Odoo and Django backends for content generation, CRM automation, and offline-capable AI inference – reducing manual effort by ~40%. | |

- **Automation & Data Pipelines:** Batch-synchronized **10,000+ contacts** using Python-driven **scheduled actions**; automated commission calculations via **Odoo automated rules**; deployed **CRON-based email validation pipelines**; managed async task queues with **Celery + Redis**.
- **OWL JS & Frontend:** Built custom **OWL 2 components**, **Chart.js dashboards**, and **Odoo widgets**; ported **v14–v16 Backbone.js** code to **OWL 2** framework; extended the **Email Marketing snippet editor** with dynamic backend blocks.
- **Third-Party Integrations:** Connected **WhatsApp**, **Postmark**, and **3CX VoIP** via REST and webhooks; configured **incoming/outgoing mail servers** for large-scale mailing workflows.
- Optimized **PostgreSQL** ORM queries and indexing, improving report generation by **~25%** on high-volume datasets; managed deployments on **Linux-based Odoo.sh**, **Cloudpepper**, **Render**, and **VPS** environments.
- **Docker:** Used **Docker Compose** to spin up isolated, reproducible Odoo environments across multiple versions (v14–v19) for rapid cross-version testing and module validation – eliminating full reinstallation overhead.
- **AWS Infrastructure:** Provisioned **EC2** (Linux) instances with security groups and **IAM** roles; configured **Elastic Load Balancer (ELB)** across multiple regions and availability zones; managed **EBS snapshot** backups for data recovery and instance lifecycle management.

KEY PROJECTS

Visitor Management System | *Django, DRF, PostgreSQL, JWT, Render* | [Live](#)

- Production-grade **Visitor Management API** with **DRF**, **JWT authentication**, and **RBAC** for multi-role visitor workflows; deployed to **Render** (Linux) with full PostgreSQL and environment configuration.

AI-Powered Odoo CRM Suite | *Python, Odoo, OpenAI GPT, OpenRouter.ai, Ollama, SpeechRecognition*

- Integrated **OpenAI GPT** and **OpenRouter.ai LLMs** into Odoo CRM for smart lead summaries and reply suggestions; added **Ollama** for fully offline AI inference within Odoo workflows.
- Engineered **real-time VoIP call transcription** using Python's **SpeechRecognition** library, auto-saving structured transcripts to CRM records.

OpenRouter Mail AI Studio | *Python, Odoo, OpenRouter.ai, Unsplash API, OWL JS*

- Built an AI-powered email marketing platform inside Odoo using **OpenRouter.ai LLMs** to auto-generate full templates from a single prompt; integrated **Unsplash REST API** for dynamic image enrichment.
- Engineered an **inline block editor** for post-generation edits and implemented multi-layer guardrails: input sanitization, LLM response validation, and ORM-safe writes.

Canna – Email Marketing & Mailing Sync | *Python, Odoo, PostgreSQL, Drupal*

- Wrote Python batch-processing scripts to synchronize **10,000+ contacts** from Drupal into Odoo with deduplication and segmentation; deployed a **CRON-based email validation pipeline** to reduce bounce rates.

Caribbean Sign – 3CX VoIP Integration | *Python, Odoo, REST API*

- Built Python-based REST integration unifying **3CX VoIP with Odoo CRM** – auto-creating leads from inbound calls and mapping call metadata to CRM records for a **30-agent sales team**.

EDUCATION

IMS Engineering College, Ghaziabad (Affiliated to AKTU)

B.Tech in Computer Science and Engineering – 85.54%

Ghaziabad, UP

Aug 2019 – Jun 2023

CERTIFICATIONS

REST API (Intermediate) Certification | **HackerRank** | 2026

Python Programming – A Practical Approach | **IIT Kanpur** | 2022

Python Basic, Data Structures, OOP in Java, HTML | **Coursera** / **HackerRank** | 2021
