PROFESSIONAL SUMMARY

Python & AI Developer and AI/ML Engineer with **3+ years of experience** designing scalable backend systems (**Django, FastAPI, Odoo ERP**) and engineering production-grade **Generative AI/LLM applications**. Expert in building **Retrieval-Augmented Generation (RAG)** pipelines, agentic workflows, and semantic search systems using **LangChain** and Vector Databases. Strong foundation in **Linux, PostgreSQL**, and general cloud deployments (**AWS EC2, S3, Lambda, RDS, EBS**). Delivered **20+ production modules** to **50+ clients**, optimized complex ORM queries, and integrated AI models (OpenAI, Ollama) to automate enterprise workflows. Recognized as **Best Performer of the Year** for technical leadership and reliable software delivery.

TECHNICAL SKILLS

Languages & Backend: Python, Django, Django REST Framework (DRF), FastAPI, Odoo ERP (v14-v19), JavaScript
AI & ML Tools: LangChain, LangGraph, RAG Architectures, Vector Databases (FAISS, ChromaDB), OpenAI GPT, Ollama, HuggingFace, Semantic Chunking
Cloud & DevOps: Linux (Ubuntu/Debian), Docker, Docker Compose, Git, AWS (EC2), Gunicorn, Render, Hostinger VPS
Databases & Automation: PostgreSQL, Redis, ORM Query Optimization, CRON Jobs, Celery
Frontend: OWL JS, QWeb, HTML/CSS, Chart.js
Authentication & Security: JWT Authentication, Google OAuth 2.0, RBAC, Input Sanitization

WORK EXPERIENCE

Freelance Backend & AI Developer

Apr 2026 – Present

WareZip

Remote

- Architected well-structured backend services using **Django, Django REST Framework**, and **PostgreSQL** for a SaaS warehouse management platform, handling **1,000+ daily API requests**.
- Designed and implemented secure **REST APIs** with **JWT authentication, Google OAuth 2.0**, and role-based access control mechanisms.
- Managed general deployment of backend services on a **Linux (Hostinger) VPS**, including **Gunicorn** configuration and environment setup.
- Collaborated proactively in a remote team with frontend developers to ship **5+ API-driven features**, cutting integration turnaround by **~30%** and maintaining **99%+ API uptime**.

Software Developer

Feb 2023 – Mar 2026

Webkul Software Pvt. Ltd.

Noida, UP, India

- Awarded **Best Performer of the Year** and **Perfect Customization Badge**; mentored **3+ junior developers** and led code reviews across sprint cycles.
- **Odoo ERP (Python/ORM):** Wrote high-quality Python code for **20+ custom Odoo modules** and migrated **150+ modules across v14–v19**, saving an estimated **200+ hours** of manual configuration.
- **Django & DRF:** Designed and delivered **RESTful APIs** with **JWT authentication** and **RBAC** for secure, multi-role enterprise integrations supporting **5,000+ end users**.
- **AI/LLM Integration (Python):** Integrated **OpenAI GPT** and local **Ollama** models into backends for content generation and CRM automation – reducing manual effort by **~40%** for a **10-person sales team**.
- **Frontend & OWL JS:** Built custom **OWL 2 components, QWeb reports**, and interactive dashboards to extend Odoo's web interface.
- **Automation & Data Pipelines:** Batch-synchronized **10,000+ records** using Python-driven scheduled actions and managed async task queues with **Celery + Redis**.
- **Cloud & DevOps:** Used **Docker Compose** to spin up isolated testing environments; managed general cloud deployments on **AWS EC2** and VPS servers, handling basic domain configurations.

KEY PROJECTS

- YouTube Video RAG & Semantic Search App** | *Django, LangChain, FAISS* May 2026 – Present
- Engineered a full-stack **Retrieval-Augmented Generation (RAG)** web application using a **Django** backend to retrieve, process, and accurately answer user queries from complex YouTube video transcripts.
 - Implemented **MultiQueryRetriever** and Semantic Chunking pipelines leveraging local HuggingFace embeddings, significantly improving retrieval relevance by **25%**.
- Enterprise Multi-Agent LLM Architecture** | *Python, LangGraph, Ollama* Apr 2026 – May 2026
- Architected cyclic, stateful agentic workflows using **LangGraph** and **TypedDict** to model multi-step LLM reasoning processes and automated task delegation.
 - Bound custom external tools to Chat Models using LangChain's **@tool** decorators, enabling LLMs to execute dynamic calculations natively.
- FairEats Food Delivery Platform** | *FastAPI, React, PostgreSQL* Jan 2026 – Apr 2026
- Developed a full-stack food delivery marketplace handling **500+ mock transactions**, utilizing **FastAPI** for high-performance backend routing and **React** for the dynamic frontend interface.
- AI-Powered Odoo CRM Suite** | *Python, Odoo ERP, OpenAI GPT, Ollama* Oct 2025 – Dec 2025
- Integrated **OpenAI GPT** into Odoo CRM architecture for smart lead summaries and automated reply suggestions; added **Ollama** for fully offline, privacy-first AI inference within Odoo workflows.
 - Engineered an AI-driven email marketing studio using LLMs to auto-generate customized QWeb templates from single prompts, featuring inline editing and ORM-safe writes.
- Visitor Management System API** | *Django, DRF, PostgreSQL, JWT* Jul 2025 – Sep 2025
- Built a production-grade backend API with **DRF**, **JWT authentication**, and **RBAC** for multi-role visitor tracking; deployed successfully to a Linux **Render** environment supporting **1,000+ user records**.

EDUCATION

IMS Engineering College, Ghaziabad (Affiliated to AKTU) Ghaziabad, UP
B.Tech in Computer Science and Engineering – CGPA: 8.55/10.0 Aug 2019 – Jun 2023

CERTIFICATIONS

REST API (Intermediate) Certification | **HackerRank** | 2026
Python Programming – A Practical Approach | **IIT Kanpur** | 2022
Python Basic, Data Structures, OOP in Java, HTML | **Coursera / HackerRank** | 2021

LANGUAGES

English: Full Professional Proficiency, Hindi: Full Professional Proficiency
